Experience

Established in 1875, Nicholls & Clarke has pedigree that has been developed over many years. Through great heritage, we have gained a depth of knowledge and invaluable experience in the manufacturing and supplying of Phlexicare products to the construction market. We have experience across many industries with a huge portfolio of products suited to all project environments.

Warranties

N&C Phlexicare products are manufactured to such high and exacting standards enabling us to offer a fantastic warranty on all our products.

Environment

As an ISO14001 company, sustainability is a core part of our company agenda. As well as various carbon offsetting programmes in place, we invest a great deal in manufacturing and developing solutions dedicated to reducing our carbon footprint, and in turn increasing our customers' green credentials.

Customer Care

We aim to provide you with an outstanding level of customer service that will help to further enhance the service you offer to your clients. We monitor our performance levels and strive to achieve 100% client satisfaction. We believe that open channels of communication with our customers, coupled with their feedback are a sure way of further improving our customers buying experience.

International

N&C Phlexicare products are used in over 70 countries throughout the world in some of the most demanding commercial situations. This worldwide experience has furthered the development of some of the latest technologies we now use in the U.K.

Product Quality

All our products are tried and tested prior to being introduced into the marketplace. All N&C Phlexicare products exceed the requirements or the relevant BS/EN Standards, offering specification clients and contracting customers the confidence in our product quality.

Trade Associations & Technical Committees

N&C Phlexicare has been heavily involved in the creation of British & European Standards for decades. We have chaired the TTA Wetroom Technical Committee. We continue to push for stringent policing of the industry which would stop manufacturers falsely claiming specific European standards on packaging. Our philosophy has always been to drive up quality and standards whilst remaining highly competitive.

Disability Rights UK

British Manufacture

Our three state of the art U.K manufacturing facilities comply with ISO 9001 and ISO 14001, utilise the latest manufacturing technologies and apply stringent quality control checks during every part of the manufacturing process. Only the highest quality raw materials and packaging are used, ensuring the finished product meets our exacting standards.

24 Hour Nationwide Delivery

N&C Phlexicare are unique in being able to offer nationwide, next day delivery, even when you order up to 5pm the day before¹ and there is no minimum order requirement. N&C Phlexicare operates from 17 branches nationwide so can offer localised delivery, or with thousands of product lines in stock, you also have the option to collect.

Technical Service

Our team of Phlexicare specialists are able to offer a full technical specification service and are available to attend any site address throughout the U.K. A technical written specification is available on request. We offer CAD drawings for easier

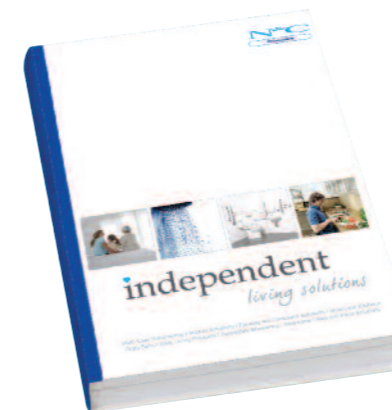

Independent living, inclusive design

N&C Phlexicare are pioneering, British manufacturers and distributors of showering, daily living, access, wall & floor and kitchen solutions within the healthcare construction market. We design, manufacture and distribute a full range of inclusive solutions with users, carers and installers in mind.

Our products are inspirational by design, functional by nature and produced using high quality materials. Our passion is to enable freedom and independence for users with different levels of abilities, within commercial or domestic environments.

N&C Phlexicare invented many of the products taken for granted today, such as the raised height W.C pan, low entry shower tray and half height shower doors. Our commitment to research and development has led to the creation of many unique products which are specified and used throughout the U.K and exported worldwide.

One of Phlexicare's key core values is 'attractive, inclusive design' claimed by many but achieved by few. To that end, we work very closely with charities and organisations such as 'Disability Rights U.K', 'The Centre for the Accessible Environment', Occupational Therapists and disabled users to ensure that our products achieve solutions for all, users and the people that care for them.

Part of the Nicholls & Clarke Group, we have the ability to offer the complete adaptation solution using a comprehensive range of quality products, so that you can benefit from dealing with one source, making it easier to co-ordinate project supplies. From kitchens, bathrooms, to access and wall & floor solutions, we work with you to provide the complete solution for your project.

Are you involved in adaptation projects?

As the leading independent living solutions providers in the UK, N&C Phlexicare supply the complete adaptations package for the ever increasing demand for projects for the elderly and disabled market. Order our 390 plus page independent living solutions catalogue for the full product listing, featuring over 6000 products for professionals.

Vogue - R/H Close Coupled Embrace - R/H Close Coupled Pentland Modern - R/H Back to Wall

Raised Height Toilet Pans

We supply a range of raised height pans (450mm), ideal for wheelchair transfer or users with a sensitive back or knees.

Did you know that we invented Raised Height Pans back in the 1970's?

Support Rails

Our collection of highly engineered grab rail and support systems have been ergonomically designed for a natural grip experience for extra comfort and grip. The Phlexi-wave has an anti-bacterial coating and wipe clean surface is ideal for ease of daily use. The surface is wipe clean, durable and is not cold to touch.

Advanced Toilet Seats

We supply a wide range of replacement toilet seats from standard seats to our most advanced toilet seats. Some of the special features incorporated in our advanced range include:

- retaining buffers, which are located within the rim of a W.C. pan to stop sideways movement during wheelchair transfer,
- strong stainless steel cross bar hinges for durability,
- antibacterial coatings to aid hygiene and soft close action for smooth seamless closing of the seat and cover.

Wash Basins for all

Our wash basins are manufactured to a high quality and tested rigorously prior to their availability in the market. We offer a variety of wash basins to suit users needs, such as our wall fixed models to allow ease of access for wheelchair users or an easy to use, moveable swing basin.

The majority of our washbasins, with bolt fixings, can also be mounted on adjustable height basin assemblies for multi user environments. We offer a range of pedestal and semi-pedestal mounted basins in our range with basins starting from 400mm up to 760mm wide to suit the space available within the bathroom or washroom.

AquaClean 8000plus Care

The shower toilet system is perfect for those who wish to maintain independence and privacy in the bathroom. The shower toilet combines all the functions of a conventional W.C. and bidet with the comfort of warm-air drying.

Taps & Mixers

Taps and mixers are the vital components which allow delivery of water to be achieved in all bathrooms. The operation of the taps and mixers within a healthcare or elderly person's bathroom or kitchen determines the ease of use, and therefore suitability of the fittings installed. Our lever tap collection allow users to operate the flow of water with ease. We offer a range of Thermostatic Mixing Valves (TMV) for efficient blending of hot water (stored at temperatures high enough to kill bacteria) with cold water to deliver a constant and safe, outlet water temperature to baths and basins to prevent scalding.

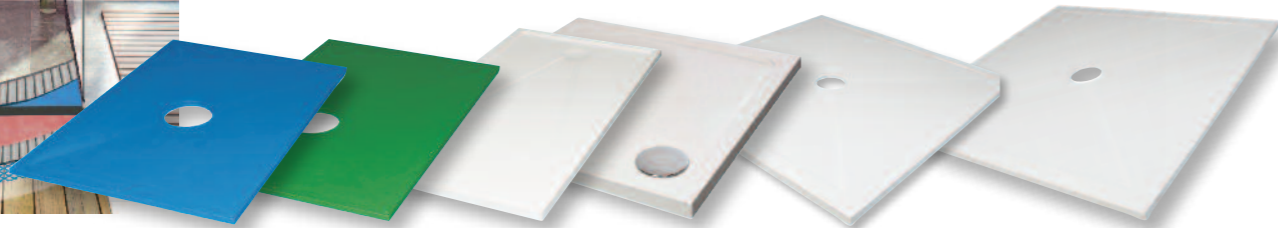

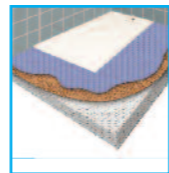

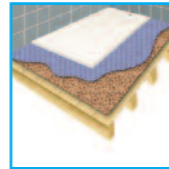

Complete Adaptation Specialists

Achieving Easy Access in the Bathroom

N&C Phlexicare manufacture and supply a collection of quality floor formers and shower trays available in endless sizes and positions. All shower trays and decks meet stringent testing and standards to ensure quality, strength and durability. For example, our Premier Shower Deck is a robust, self supporting shower deck for achieving a total level access wet floor showering area with confidence. Tried and tested, the Premier Shower Deck is manufactured to high quality performance and endurance, accepting a weight of up to 470kg. The deck can be cut on site and has an offset waste for easier and more flexible installation. Can be installed onto concrete or timber floors.

Flexible and Angled Shower Curtain Track

A flexible white coated aluminium shower curtain track is supplied as a straight section to be used between walls or can alternatively be easily bent into shape on site for corner installations. Track supplied complete with 610mm adjustable ceiling support, easy glide rollers and 12 hooks.

Thermostatic, Anti-Scald Showers

N&C Phlexicare offer the most comprehensive range of both electric and thermostatic mixer showers with safety in mind. Hot water temperature is controlled and stabilised to avoid the potential for scalding. Thermostatic temperature stability, easy use controls, colour contrasted covers, tactile raised areas and extended riser kits are some of the extra features provided in our electric shower offer. Whilst manufacturing our own dedicated healthcare mixer showers, we also work closely with brand leaders, such as Triton, Mira, Bristan and Redring to provide our customers with maximum choice.

TMV 3 - For use in high risk environments, hospitals, nursing homes and schools
 TMV 2 - Domestic homes, housing associations, local authorities, housebuilders and hotels

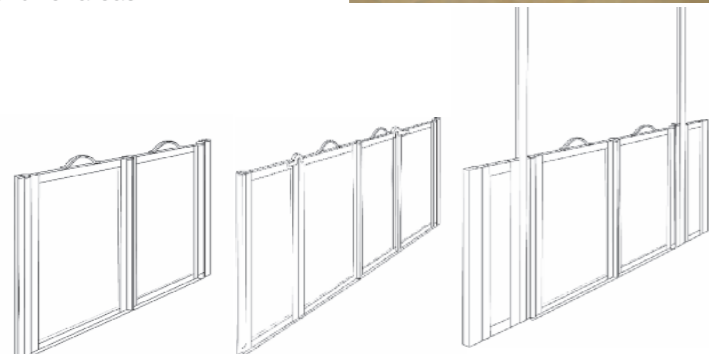

Shower Seats

Our range of shower seats can be used in many varied showering applications, both inside and outside of the showering area. As these seats are wall mounted consideration should be given to the type of fixings used to secure them. The appropriate fixings (not supplied) to suit the wall construction should be used and advice is available from your local depot.

Half Height Doors

Our half height Pro-Door system enables easy level access for family members and carers. Our quality constructed, half height shower door system is available in a variety of configurations and sizes for use in wet rooms and shower areas.

Pumped Waste Systems

Our pump systems offer a variety of options to suit most installations where gravity drainage is not practical. Our shower waste pumps are extremely quiet and will easily cope with the output of all electric showers and most mixer valves.

Gravity Waste Systems

A unique design of top access, combined waste and trap, for easy cleaning and maintenance. Only 50mm deep with a flow rate of 22ltr per minute. This trap has been specifically designed for our Easy-Fit range of shower trays. 50mm high. 38mm outlet.

N&C Installer Training

We offer practical training courses at our 120,000 square foot head office facility. Our team of experts will demonstrate and give clients and customers the opportunity to get hands on with our range of products.

For further information contact your local depot or head office on 020 8586 4600

Safety Flooring

Altro Marine TM20 Altro Aquarius (2mm)

A carefully textured dimpled surface specifically designed for safety with wet, bare feet or soft soled footwear. It affords superb slip resistance when wet.

Multi-User Kitchens for all

Height Adjustable Units and Worktops

N&C Phlexicare Kitchens ensures that everyone in a household, classroom or place of work can participate in daily activities on an equal basis and feel secure. Being able to adjust the height of worktops and wall cupboards is a great help for many people. The design of height adjustable worktops vary dependent on the building and the users needs.

Our Indivo collection consists of a range of height adjustable manual or electric, wall or floor standing work tops and tables. The Indivo manual & electric frames for freestanding worktops and tables can be used in areas where the wall structure is not strong enough to support our wall mounted models.

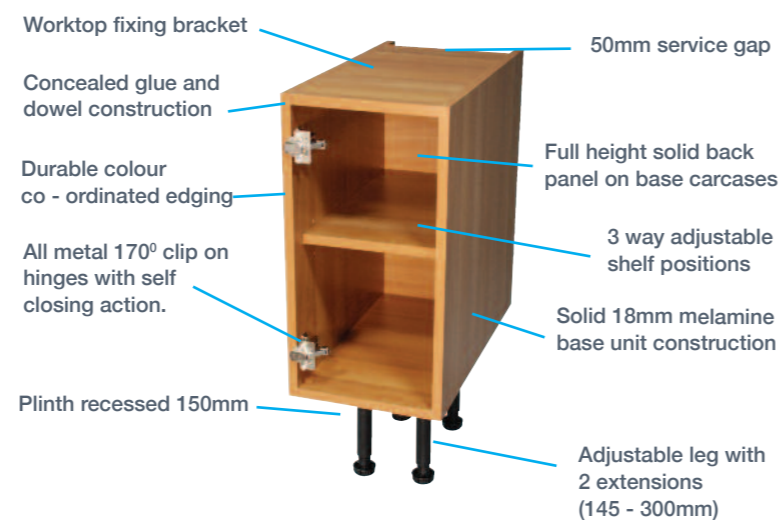

Hassle Free Multi-User Kitchens

N&C Phlexicare believe that every kitchen should be inclusive in design to suit all user needs and abilities, with an equal emphasis on function, style and affordability. Our experienced, expert team are fully equipped to carry out a free comprehensive assessment and site survey to ensure the adapted kitchen is safe, functional and suited to all users within the household. Special unique features means that practical function can be combined with stylish design to match all budgets and tastes.

Manufacturing excellence for safety

Our cabinet carcasses constructed from a high quality, 18mm thick melamine board, available in a range of colour co-ordinated finishes. The units are glued and dowelled to give a solid pre-assembled construction. Available in both white and co-ordinated carcass colours.

Specialists in Compliant Accessible Toilets

Our fully compliant MPack has been ergonomically designed with safety and comfort of users in mind. Our most comprehensive Mpack comes complete with TMV3 approved thermostatic mixer and co-ordinated accessories, whilst also offering visual contrast for visually impaired users for safe and easy manoeuvring. We offer a wide range of transfer possibilities to suit individual requirements, to ensure full compliance with both the Building Regulations Approved Document M 2015 Edition and BS 8300 2009 +A1 :2010.

Washroom Accessories

We supply a broad range of washroom accessories from soap dispensers and hand dryers to unique wet room ventilation systems. We cater to all budget requirements from basic shower adaptations to high end washrooms.

Access and Portable Ramps

Our range of portable ramps are the perfect access solution for wheelchair users, where a permanent facility is unavailable. Our portable ramps can be used in both commercial and domestic settings with a number of uses, dependent on type of access requirements.

New generation Official RADAR Lockset

N&C Phlexicare are the official manufacturers of The National Key Scheme (NKS) RADAR lock system. The scheme enables disabled people to independently access locked public toilets around the country. The scheme helps in the prevention of vandalism and misuse of public disabled toilets. Our locks have been rigorously tested for durability and meets requirements set out in BS8300.

Install a Complete Wet Room in five easy steps...

- 1** **Wet Floor Former**
 Our Premier Shower Deck is an easy to install, robust floor former that can be tiled or vinyled directly onto. It creates a level access floor into the shower area & assists the flow of water to the drain
- 2** **Drainage**
 Opt for either standard or linear drainage with a tile insert option, or from a selection of our stylish stainless steel gratings
- 3** **Tanking System**
 Create a watertight environment with total confidence by using our complete tanking system which includes easy to use self adhesive collars and waterproof tape
- 4** **Shower Screens**
 Select from our attractive range of modern, toughened shower screens available in a range of sizes for any room size
- 5** **Tiles & Accessories**
 Choose from our huge range of on-trend wall & floor tiles, undertile heating, shower seat, grab rails and bathroom accessories

The NEW All-in-One Bath Replacement Cubicle

AquaMagic is our revolutionary range of self contained shower cubicles, that encompasses innovation, style and performance. Designed with users in mind, AquaMagic features a cool touch shower, leak free construction as well as the option of an anti slip tray, secure grab rails and a comfortable fold down seat. Furthermore, the easy installation means that replacing an old bath or shower is easier than ever before.

Replace an existing bath in a day

Create Rooms with Colour Contrast

Light Reflective Values (LRV) available for every tile!

Ikon Plain Colour Wall Tile Range

Our Nicobond Ikon plain colour collection is the longest established plain colour tile collection in the UK. With over 40 colours, 4 popular sizes, multiple finishes, high stain resistance and glazed edges, we offer an unrivalled solution for residential and commercial projects nationwide.

Sizes Available : 150 x 150mm - 200 x 200mm
100 x 200mm - 100 x 100mm

Bevel - gloss wall tiles

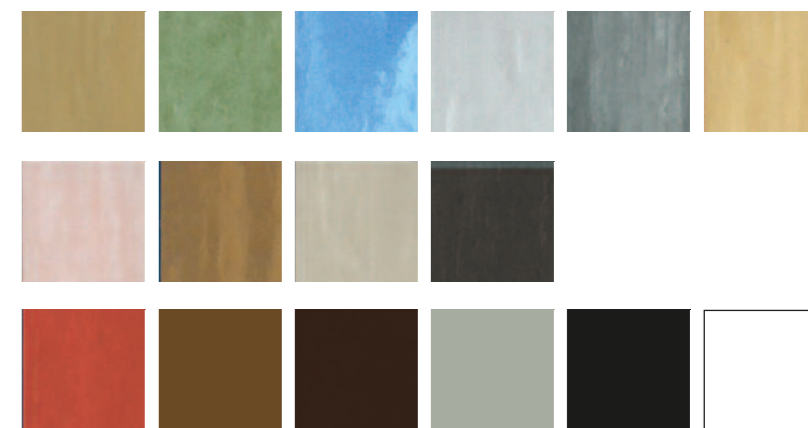

A popular choice in the residential market, these eye-catching, vibrant bevel edge ceramic wall tiles are suitable for use in the bathroom, kitchen or throughout the home for the ultimate in city chic

Ikon Co-ordinating Vinyl Floor Tiles 300 x 300mm

Nicobond Ikon Vinyl Tiles are a multipurpose, durable, semi flexible vinyl floor tile. The tile has an excellent wear rating and with its PU coating makes it the perfect choice for schools, residential, offices, shops etc.

The range consists of 16 popular colours, 10 marble and 6 minimal design. Nicobond vinyl tiles are particularly suited for use in domestic housing and general refurbishment. The Nicobond Ikon Vinyl Floor Tiles have been designed to co-ordinate perfectly with the Nicobond Ikon Plain Colour Range of ceramic wall tiles.

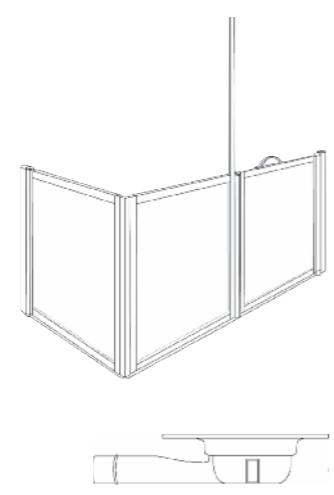

Showering Solutions

We offer a comprehensive range of showering products for a wide range of applications from commercial to domestic showering environments. We offer installers and other professional with complete shower adaptation solution for the creation of a more accessible environment for the end user.

We offer a vast number of sizes, configurations and types of trays and doors suited to exacting needs of the user. Our range of shower doors includes half-height bi-fold, tri-fold, front entry, corner entry, sliding and fixed panel options and more. We provide all shower accessories required to complete the project with products designed to be affordable, easy to install and attractive.

- Shower Trays
- Shower Doors
- Shower Packs
- Electric Showers
- Thermostatic Mixers
- Shower Raiser Rail Kits
- Gravity Shower Wastes
- Pumped Shower Wastes
- Shower Seats
- Shower Curtains and Track

Anti-Microbial Protection
 All of our shower trays are impregnated using the Wells Silver Ion System. This is a non organic system, which will not lose its effectiveness over time, as opposed to some other systems. The Wells Silver Ion System has proven effective against a large range of Gram Positive Bacteria such as Staphylococcus Aureus, MRSA, Listeria and Gram Negative Bacteria such as Escherichia Coli, Pseudomonas Aeruginosa and Salmonella. The additive is also effective against moulds and fungi such as Aspergillus Niger and penecillium Chrysogenum.

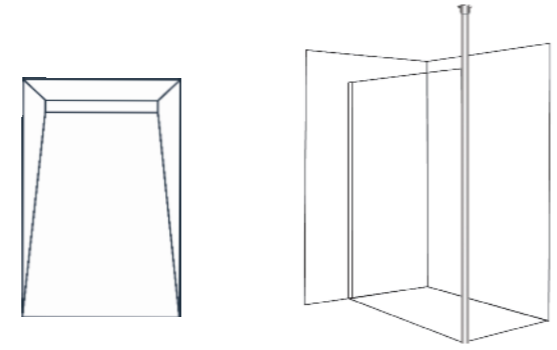

Wet Room Solutions

N&C are unique as a manufacturer and supplier of all the components required to create a completely watertight, level access wet room with ease and confidence, without raising floor levels. Our floor formers have been manufactured, tried and tested proving to be the strongest shower decks in the UK market, suitable for both tile and vinyl floor installations. We supply a range of options from glass screens, full and half height shower doors, sliding and pivot door options.

We manufacturer the complete waterproof tanking system needed to provide a sealed, watertight environment, that is easy and quick to install.

- Floor Formers
- Shower Screens
- Wet Room Drainage
- Waterproofing and Tanking
- Sanitaryware and accessories
- Wall and Floor Coverings (Tiles and Vinyl)

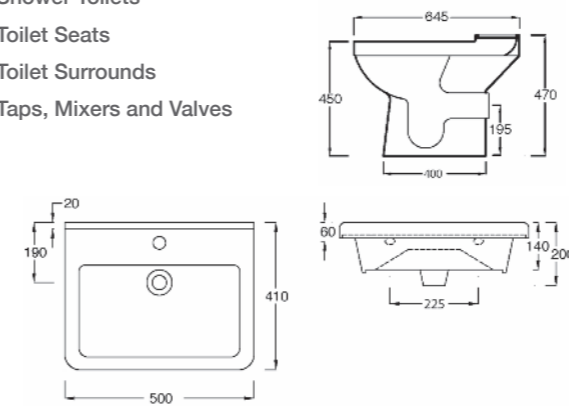

Bathroom Solutions

Consideration of current requirements and future needs, intensity of use, and levels of dependency all need to be taken into account in the selection of products for the bathroom. N&C Phlexicare offer a wide range of solutions to suit varying requirements, from basic walk-in baths to the most complex powered baths. Furthermore, as manufacturers of sanitaryware we ensure the highest quality bathroom products are offered to our customers.

We supply eco products to meet stringent guidelines to reduce water consumption. Toilet pans vary from the simple replacement BSS type through to shower toilets with spray washing and drying function. All of this can be complimented by matching basin and taps to suit every budget.

- Baths
- W.C. Suites

- Doors & Cabinets
- Designer Handles
- Height Adjustable Worktops and Sinks
- Appliances

Research & Development

Our product development team are highly equipped and constantly engaged in research and development. Investment in the latest testing facilities allow us to push forward with the development of the next new technology or raw material, that will further enhance product performance. Prior to going to market, we carry out rigorous testing to ensure that our products' performance is to a consistently high standard. Our products undergo thorough testing to meet the relevant standards and regulations. We also test our competitors products to ensure our products remain best in class.
