Total Bathroom

Collection

The Nicholls & Clarke Group is a business dedicated to the manufacture and supply of the finest building materials. Founded in 1875 in London, we have grown from servicing the capitals' building trades to becoming the largest privately owned national manufacturer and distributor of fine quality building products.

Quality manufacturing is at the core of our business and comes as standard. We own state of the art manufacturing facilities based across the UK and Central Europe. This gives us the broadest manufacturing capability available, allowing us to offer an extensive portfolio of product, more specialised than that of any of our competitors.

Our distribution network is supported with our private fleet of over 110 commercial vehicles. This gives us full logistical control from the point of manufacture through to delivery to site. We offer a nationwide delivery service, be that to site, home or commercial address. The vast majority of our deliveries are made on a next day basis.

Total Bathroom Collection

Our Bathroom Collection has been designed specifically to deliver quality products at competitive prices. Our modern, sleek range of products has been developed with the increasing needs of today's market place in mind, designed to suit all tastes and requirements. All of our sanitaryware, taps and showers are approved and tested to the current UK regulatory requirements. Our exceptional product warranties on our whole range of bathroom products reflect the stringent test procedures our products must pass prior to being included within our brand. We continuously deliver quality products, as standard, to all of our customers.

Experience

Established in 1875, Nicholls & Clarke has pedigree that has been developed over many years. Through great heritage, we have gained a depth of knowledge and invaluable experience in the manufacturing and supplying of bathroom products to the construction market. We have experience across many industries with a huge portfolio of products suited to all project environments.

Total Solution Providers

As part of the Nicholls & Clarke Group, we have the ability to offer the complete bathroom solution through a comprehensive range of quality products, so that you can benefit from dealing with one source, making it easier to co-ordinate project supplies.

Inventors & Innovators

N&C have been introducing innovative products to the bathroom industry from the early years, such as the invention of the raised height pan. We continue to be at the forefront of innovation, embracing new technology within the industry and better defining our portfolio of products that perform, but where quality and functionality are at its peak. As inventors, we continue to engage in research and development and have spent decades developing innovative bathroom products that solve the challenges faced in today's construction industry.

Warranties

N&C products are manufactured to such high and exacting standards enabling us to offer excellent warranties on all of our bathroom products. Our shower enclosures and wet room screens have up to a lifetime warranty, our shower trays and sanitaryware have up to 25 years warranty, our taps and showers have up to 12 years warranty and our baths and vanity furniture have up to 10 years.

Research & Development

Investment in the latest manufacturing equipment and testing facilities allow us to push forward with the development of new technology and raw material that will further enhance product performance and handling characteristics. Prior to going to market, we undergo rigorous testing of all our products to ensure that performance is to a high standard. All products are tested to meet the relevant standards and regulations.

Environment

As an ISO14001 company, sustainability is a core part of our company agenda. As well as various carbon offsetting programmes in place, we invest a great deal in manufacturing and developing solutions dedicated to reducing our carbon footprint, and in turn increasing our customers' green credentials.

Training

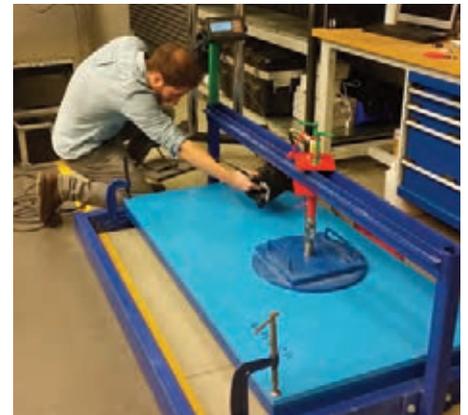

We offer practical training courses at our 120,000 square foot head office facility. Our team of experts will demonstrate and give clients and customers the opportunity to get hands on with our range of products. For further information please contact our Head Office on 020 8586 4600 or email us at info@nichollsandclarke.com

Customer Care

We aim to provide you with an outstanding level of customer service that will help to further enhance the service you offer to your clients. We monitor our performance levels and strive to achieve 100% client satisfaction. We believe that open channels of communication with our customers, coupled with their feedback are a sure way of further improving our customers buying experience.

British Manufacture

Our three state of the art U.K manufacturing facilities comply with ISO 9001 and ISO 14001, utilise the latest manufacturing technologies and apply stringent quality control checks during every part of the manufacturing process. Only the highest quality raw materials, product formulations and packaging materials are used, ensuring the finished product meets our exacting standards, far exceeding those of the latest European standards.

Trade Associations & Technical Committees

N&C have been heavily involved in the creation of British & European Standards for decades. We have chaired the TTA Wetroom Technical Committee. We continue to push for stringent policing of the industry. Our philosophy has always been to drive up quality and standards whilst remaining highly competitive.

Nationwide Delivery

Nicholls & Clarke are unique in being able to offer nationwide delivery. N&C operates from 17 branches nationwide offering localised delivery or, with thousands of product lines in stock, you also have the option to collect.

Technical Service

The Nicholls & Clarke technical team has extensive experience in the bathroom industry. We are able to offer a full technical specification service and are available to attend any site address throughout the U.K. A technical written specification is available on request.

Product Quality

All of our bathroom products are tried and tested to great depth prior to being introduced into the marketplace. Our sanitaryware undergo rigorous European and British testing such as Flush Testing, Saw Dust Testing, Dye Retention Testing and Solids Testing.

TMV 3 Certified
Valves that are suitable for use in high risk commercial healthcare applications within the UK

TMV 2 Certified
Valves suitable for domestic applications using BS EN1111 and BS EN1287 as a basis for performance testing.

Eco - Friendly
Products that form part of the eco collection for encouraging reduced water wastage and consumption

Recycle
Made from recycled materials to help reduce our clients' carbon footprint

Suitable for Power Showers
Products which are associated with this symbol are suitable for use with power showers.

Comfort Height
Raised height pans, perfect for added comfort, accessible & disabled facilities

Centronite
A layer of the extremely thick hardening composite. This material helps your bath stays warmer for much longer.

Rimless
An innovative water flushing technology. The lack of inner rim prevents bacteria and allows for thorough cleaning and flushing of the inner surface of the bowl.

Bluetooth
Compatible with smart phones through bluetooth connection

Smaller Bathrooms

It is often thought that having a smaller bathroom limits you on your choices. However, at N&C we are able to offer you a wide range of products which are stylish, functional and will fit in your bathroom no matter what the size.

Luxurious Bathrooms

Excite your imagination with our gorgeous range of designer products suitable for creating a luxurious, quality bathroom. Take advantage of our high quality, durable bath ranges made from centronite and lucite or our Swarovski crystal studded tap range.

Designed for you...

At N&C we are passionate about offering quality bathroom products, that meet our users' different needs and requirements. Our wide range of products allow us to offer a variety of different looks to appeal to our customers. It is important to us to help our customers achieve the bathroom look they would like to create, with the concept and size of their bathroom in mind.

Larger Bathrooms

Having a bigger bathroom than standard can sometimes seem daunting, with not knowing how to fill up the space or use the space effectively. Allow us to help you create an inspirational bathroom space which has everything you need.

Inclusive Bathrooms

As leading manufacturers within the healthcare market, we offer inclusive products that are attractive and highly functional. Our life long products are suitable for all types of users for the ultimate in comfort, ease of use and access.

Wet Rooms

As the UK's leading total wet room solution provider we are able to offer you all of the components you will need to create a gorgeous wet room area. Wet rooms are today highly sought after as an attractive alternative to the standard bathroom and increase the value of your property.

Bathroom Trends...

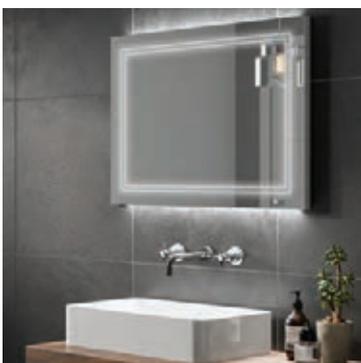

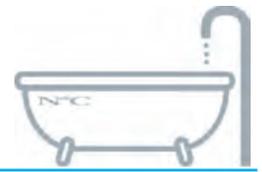

Our inspirational bathroom products are developed with current and future bathroom trends in mind. Achieve the ultimate WOW factor with our designer bathroom looks at affordable prices.

Bathroom Trends...

Baths & Screens

“ Which bath would suit my bathroom best?

Many people ask the popular question of which bath would suit my bathroom best? Whether you love a luxurious soak in a relaxing bubble bath, are the type of person that likes to be in and out with a quick wash, or prefer to have a two in one shower and bath to free up some space you can be sure to find just what you are looking for with our wide range of options. Your choice of bath should ideally depend on your lifestyle and how much you use your bath, ensuring you get the best out of the money you spend.

”

Rectangular Baths

Straight baths are traditionally designed to combine style and comfort. These baths are a great solution for a simple yet affective bathroom look. This type of bath is suitable for any kind of bathroom therefore is a simple and easy option.

Freestanding Baths

Our luxurious free standing baths are inspired by the spa look. For those with the additional space, this sculpture elemented tub is highly recommended as it becomes a feature of the room. We offer you a range of traditional and contemporary styles available for all tastes.

Shower Baths

Shower baths are intelligently designed to allow you to have both a bath and shower in one, being extremely space efficient. This particular range is suitable for most users and is an incredibly popular choice.

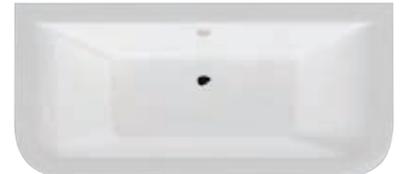

Eco Baths

The Eco Bath puts an ease on our planets resources through its innovative design. These baths are specially made to use less water than a similar sized bath with the aim to reduce wastage. With the environment in mind you can be sure that these types of baths will eventually reduce energy costs throughout your household.

Space Saving Baths

It is often recognised that bathrooms are rarely one of the biggest rooms in the house. Therefore, Space Saving Baths are created to assure you that no matter how big or small your bathroom is, you can always have a luxurious soak in a tub.

Double Ended Baths

Double ended baths provide users with additional space to lay down and stretch out in the bath through the positioning of the taps. The waste and taps are fitted in the centre of this bath therefore it makes bathing a whole lot easier. With a variety of different shapes and styles to choose from you can be sure to find exactly what you are looking for.

Lucite

Our collection of acrylic Lucite baths are seamless, double shelled and supra reinforced resulting in an overall white lucite material thickness of up to 45mm. These baths are excellent at holding the thermal heat of your hot water to ensure your luxurious soak lasts even longer.

Lucite - Baths

- Double shelled and supra reinforced

1700 x 800 x 600mm

S7006915

Acrylic

Acrylic baths are a popular choice that combine smooth, sleek curves and are the ultimate in durability and resistance to household chemicals.

The acrylic sheet is resistant to UV rays preventing discolouration caused by sunlight. With a wide range of good heat retention designs you can be sure to enjoy a relaxing bath that will stay warm throughout the duration of your bathing time.

Our centronite baths are extremely strong and durable due to their layers of fibreglass, resin and a special layer of the hardening composite, centronite. This material is extremely thick, with an 18mm baseboard for additional strength. As well as increasing the strength of these baths, this also improves the insulation through its additional reinforcement ensuring that your bath stays warmer for much longer.

Centronite baths, strong and warm

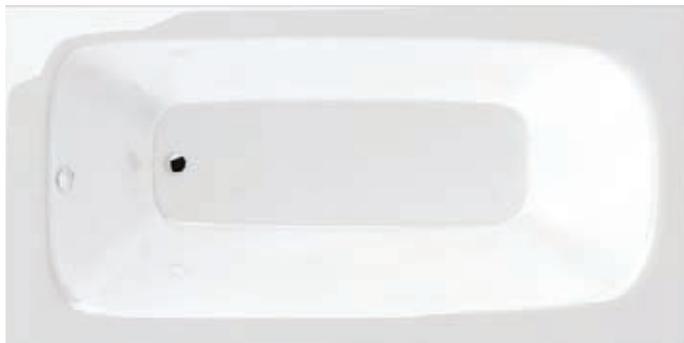

Extra Strong additional reinforcement makes the baths a lot stronger.

Warm for longer additional reinforcement helps to keep the water in the bath warm for longer.

- Acrylic Sheet
- Fibreglass and resin
- 18mm baseboard
- Centronite

Did you know... our centronite baths are resistant to UV, therefore will not discolour

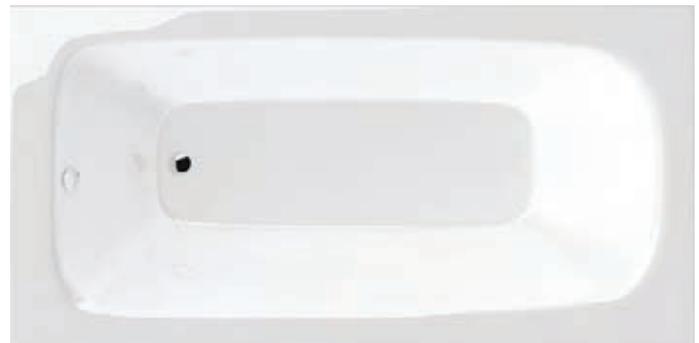

Highest quality materials resistant to UV light.

Bathroom Suites

“ How do I know which bathroom suite will suit my bathroom best?

We offer a variety of bathroom suites which are stylish and practical. When looking for a new bathroom suite it is important that you understand your needs and requirements. For example, whether you need a toilet which is height adjustable to suit all age groups or whether you would like a basin that hides all pipework. No matter what your needs and requirements are we can guarantee you that we will have just what you are looking for.

”

Wall Hung

Wall hung toilets are the ultimate in modern bathroom suite design. These are generally fixed directly to the wall or a boxed unit and suspended above ground level using brackets. Therefore; is better suited in new build properties or remodelled bathrooms. Wall hung suites are an attractive, space saving solution that allow for easy cleaning and a greater sense of space.

Back to Wall

Back to wall toilets maintain a modern appearance whilst being fixed firmly against the wall and are floor mounted, while the cistern is concealed within either a furniture unit or in the wall. The pipes are concealed along with the cistern, making it the ultimate in neat and tidy bathroom fittings.

Close Coupled

The popular style choice in most households today, where the cistern is attached to the bowl for a compact solution that is easy to install and hassle free. All the pipework is hidden within the casing.

Comfort Height

These types of toilets are great for a family bathroom and can reduce the pressure on your knees and back. Comfort height suites are an ideal option if you are looking for something which is going to last you a lifetime.

Semi/Full Pedestal

Our pedestals are a great choice for your bathroom, being extremely easy to clean and maintain. All of our pedestals are made to hide all pipework for a clean attractive finish.

Rimless

Rimless is an innovative water flushing technology. This type of flushing system ensures that the bowl is perfectly clean. The lack of inner rim prevents bacteria and allows for thorough cleaning and flushing of the inner surface of the bowl.

Sit On

Sit on basins are great for creating a gorgeous modern look. These can be fitted on top of a worktop or on furniture and hide all pipework. Create a his and hers basin area by sitting two of our sit on basins side by side,

Countertop/Semi Countertop

Countertop/Semi Countertops are easy to clean and are great to use with furniture and worktops. We can also offer you WC suites to match to create a luxurious contemporary look throughout.

Vogue

Vogue is an on-trend encompassing range with a gorgeous squared and slightly rounded design. With a huge choice of options available you can be sure to find just what you are looking for with this range.

Glass Frames

Whether in a new building or bathroom renovation – the well-designed Monolith module can be installed quickly and easily and makes the installation of new WC's simple and economical. An elegant base unit made of glass and brushed aluminium contains the complete sanitary technology and supports the toilet.

Monolith Glass Frames - WC Frames & Cisterns

Our monolith frames are ideal if you are not able to conceal the cistern behind the wall. Designed for easy installation, the monolith allows you to continue using existing connections when modernising or renovating the fixtures. The Monolith has already received several international awards for its impressive design concept.

The monolith has environmental dual-flush technology and can be combined with a variety of wall-hung toilets. The Geberit **AquaClean 8000 and 8000plus** can also be easily installed on the multi-award-winning Monolith.

Monolith Glass Frame

- 101-108cm height adjustment
- Includes internal frame for easy installation

Clever solution

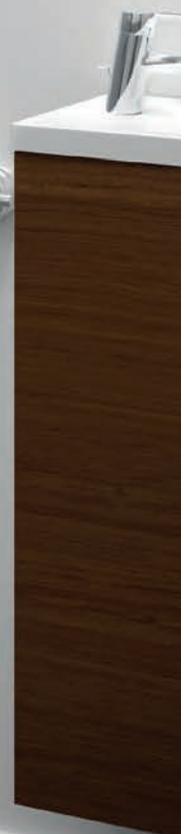

It's amazing how much intelligent technology is concealed behind this beautiful exterior! From the sensor-controlled switch-on function to the soft-touch actuation and the integrated odour extraction unit, Geberit Monolith Plus makes a real impression with its state-of-the-art technology and design.

For all the senses

Geberit Monolith Plus is a blessing for all your senses: a discreet LED comes on when the system starts operating, providing orientation without dazzling you. The quiet fan, meanwhile, ensures beneficial freshness.

Concealed Frames and Cisterns

This range of concealed support frames and cisterns are ideal for use with most wall hung WC's. Our concealed frames have been specifically designed to simplify installation, reduce cost and fitting time and come with a concealed cistern for single or dual flush plates and WC connector sets.

Bathroom Furniture

“ Which type of bathroom furniture would suit my bathroom best?

Bathroom furniture serves as a focal point of your room. Therefore, it is important to determine the overall look and storage requirements. The N&C collection of furniture is versatile to meet individual tastes. We offer a wide variety of options such as wall hung, floor standing, drawer units, door units, wall units, WC units and cloakroom units all available in various colours and sizes.

”

Cloakroom Units

Cloakroom units are used to create storage in smaller areas, but allow for ample washing space to the basin. We offer you a choice between wall hung or floor standing options.

Wall hung

Opt for wall hung furniture options for a glamorous look within your bathroom. This type of furniture allows easy cleaning, through easy access under and around your furniture.

Floor standing

Floor standing furniture is the ideal solution for those who would like more storage within the bathroom as this type of furniture is normally bigger than wall hung options. If you are looking to create a neat and tidy look, this may be just what you are looking for as this option helps to hide all pipework completely.

Drawer and door units

Bathroom drawer and door units are ideal for those who need extra storage space within the bathroom. We offer you various options, available in different styles, sizes and colours to suit your needs and requirements.

Wall units

We have a range of wall units available which are suitable for all types of bathrooms. With wall mounted and floor standing options available you are able to create different stunning visual looks.

WC units

We offer a wide range of WC units which look incredibly stylish within the bathroom. These units help to hide all pipework making the final look extremely clean and tidy.

Synergy

Create your dream bathroom with endless design possibilities with our range of Synergy Bathroom Furniture.

Our modular wall mounted furniture adds flexibility, style and class to any bathroom interior.

Regardless of the room layout, we have a broad range of modern Italian stylish designs suited to your space.

Synergy

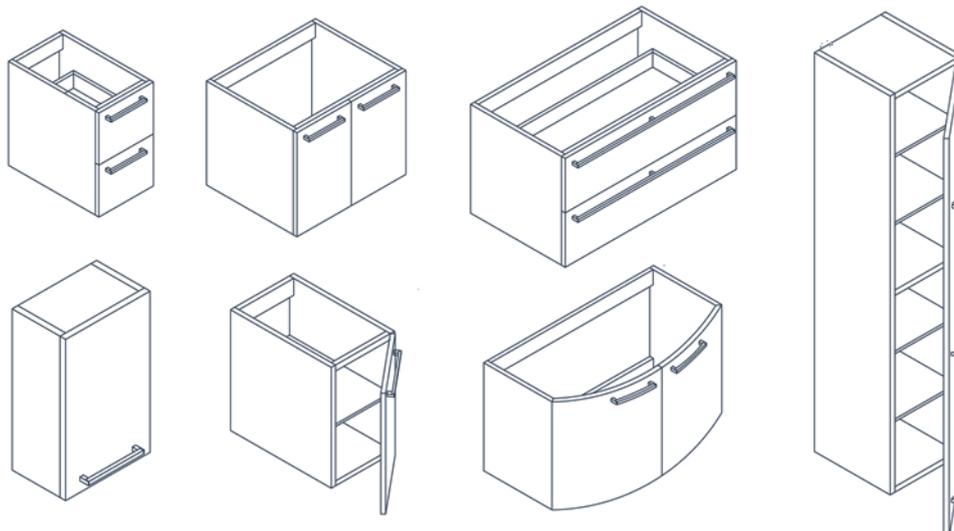

Modular furniture

Flexibility is at the heart of the modular range, with an endless choice of co-ordinating colours and configurations. The high quality materials used to manufacture each component ensures durability, quality and attractive looking products. The modular wall hung units with our moulded 12mm basin tops to suit allow you to combine the different units to any configuration to suit the requirements of the given space.

Our 18mm thick wall hung units are available in either matt or gloss laquer, 3 wood finishes and 6 warm and cool tones that stay true to the Synergy concept. The units are modular, allowing complete flexibility in the chosen configuration with basins to suit. All units feature a soft close mechanism as standard,

Wall Hung Units

Select your colour...

Choose your attractive new bathroom furniture from one of our 6 on-trend Synergy colours for co-ordinated bathroom interiors.

If you are completely renovating your bathrooms, we advise that you select the wall and floor colours you will be using on your walls and floors prior to choosing the colours for your furniture to achieve your desired look.

Select your finish...

Selecting your finish can make a huge impact to the look of your new design. This range of furniture is available in six colours with a gloss or matt finish and three wooden finishes.

Our furniture offers a quality finish to suit the tastes of individual needs.

Select your configuration...

The arrangement of your furniture is key when redecorating. Ideally the layout should determine your storage requirements and what you need to complete your new look.

It's important that you try not to clutter your room with furniture however are able to fit in everything you need. Therefore, we would highly recommend that you measure your areas along with the furniture which you are looking to buy to ensure everything fits just as you would like it to.

Colours and finishes

Our Synergy Bathroom Furniture range has a variety of colours available to suit your colour requirements. Whether you would like a light colour to brighten up a dark wall or dark furnishings to make a bold statement on a lighter wall.

Taps and Mixers

“ Which taps do I need? ”

Upgrading or buying new taps can sometimes seem daunting if you don't really know the difference between each type of tap. Therefore it's good to know the basics before setting off to shop.

”

Bath shower mixer taps

Bath shower mixer taps are the perfect solution if you want to combine both a bath and showering space. A bath shower mixer works like a normal bath filler but comes with a shower attachment which can be fitted with a bath screen to use the bath as a shower too.

Monobloc mixer taps

Some mixer taps come in a style that is known as a monobloc. This is a single taphole controlled by one or two tap handles.

Single lever taps

Single Lever Taps are similar in style to monobloc taps using single lever operation.

Pillar taps

Pillar taps are more of a traditional style of taps. They consist of two separate taps with separate hot and cold water feeds that flow independently from each other. Pillar taps are perfect for where households operate a low pressure water system and will suit any 2 taphole basin or bath.

TMV2 showers

These types of showers are thermostatically controlled and have been specially designed, built and tested for the domestic market. TMV2 showers will help to maintain your desired water temperature and stop any sudden increases.

Wall mounted taps

Wall mounted taps are mounted vertically and protrude over the bath or basin. These can look very stylish and tidy as the plumbing can be hidden behind the wall.

Exposed Shower Valve

Before you select your shower you need to consider what type of shower valve is suitable for your bathroom. An exposed shower valve is where the valve and pipework is visible and only the hot and cold water feeds need to be fitted into the wall.

Concealed Shower Valve

Pipework for the valve can be neatly hidden behind the tiles or wall for a clutter free, attractive solution. It is important to remember that a recess or studded wall is required behind the shower for the pipework to be inserted.

Essence

Essence is a range of contemporary taps which have a gorgeous polished chrome finish. We offer you a choice of coloured handles to blend with your decor to create the complete desired look within your bathroom.

Essence - Taps and Mixers

A variety of coloured handles available...

Enclosures and Trays

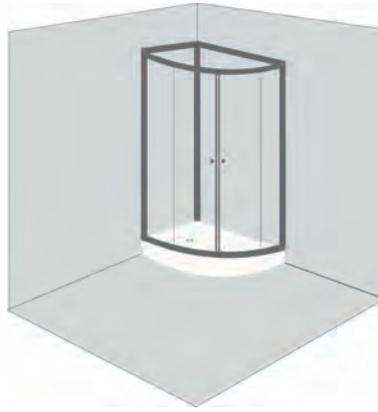

“ Which shower enclosure will suit my bathroom? ”

All bathrooms are completely different in style, design and layout. In order to choose the right shower enclosure for your bathroom you will firstly need to understand the difference between each.

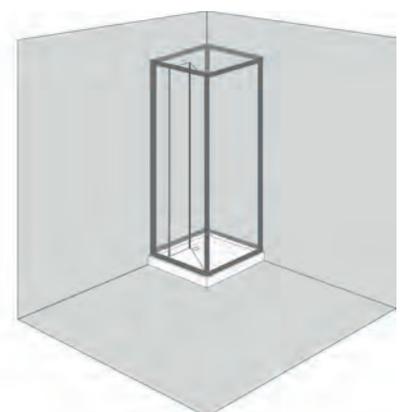

Quadrant double door

Quadrant double doors are great for maximising showering space and add a gorgeous look to your bathroom. This corner design is complemented by a subtle rounded profile with beautiful curved doors.

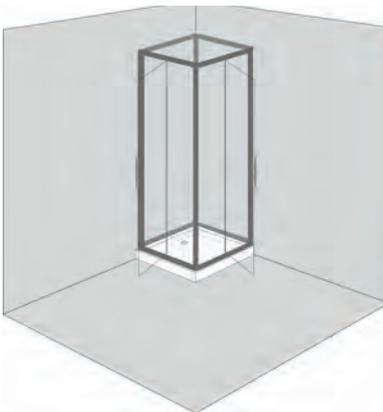

Offset quadrant

Offset quadrants are a great option for those who are looking to fit a shower enclosure in an awkward space. This corner entry design is practical and extremely stylish.

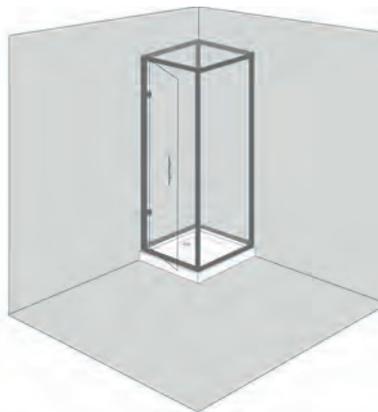

Bi-fold door

Bi-fold doors are very space efficient, helping to free up space in the bathroom for the rest of your bathroom products. The doors fold inwards, therefore you have no need to allow any extra space for the doors to open.

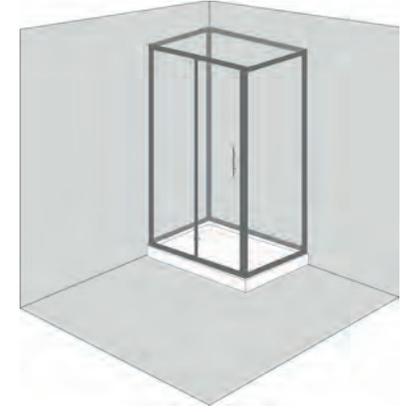

Corner entry

Corner entry shower enclosures feature sleek straight lines which look great in all types of bathrooms. These enclosures are perfect for allowing the effective use of corner space.

Outward opening doors

Opt for outward opening shower doors for an easily accessible showering space. These types of doors have been designed with practicality in mind ensuring that all users can access the showering area at all times.

Sliding door

Sliding doors help to provide a functional and practical way to create more space within your bathroom by preventing the need to have extra showering space for the doors to open. We offer a great variety of sizes and styles to ensure that you can find one that suits your needs.

Fluidity

Fluidity is an elegant range of sliding shower screens with a unique soft close door system. This high quality, robust system requires the gentlest of touches to operate the doors to offer you a unique option. This range has a barrier free entry for easy access for all users.

Transform

Our Transform shower enclosures are a simple, stylish, space efficient showering solution. The attractive bi-fold doors incorporate a unique pivot safety mechanism guided by an innovative magnetic release. This shower can be installed onto a tray or straight onto a wet floor which makes it suitable for any type of bathroom.

Unique door mechanism with easy release in case of an emergency

Left hand illustrated

Transform bi-fold door

Aqua Leak Free

Aqua Leak Free is the ideal solution for those who would like to eliminate the risk of any leaks within the bathroom.

This innovative range transforms your bathroom look, through it's curved, simple yet effective design. This range is extremely easy to clean, has excellent physical strength & has great durability.

*Eliminate
any risk of
leaks with this
range*

Available Colours

Porcelain white

Granite sandstone

Granite black

High Technology Multi Layer Construction

Isophthalic, anti-bacterial gel

This gives it excellent physical strength properties, excellent handling characteristics, easy clean, high heat resistance and outstanding corrosion resistance.

High-end GRP (Glass Reinforced Polymer)

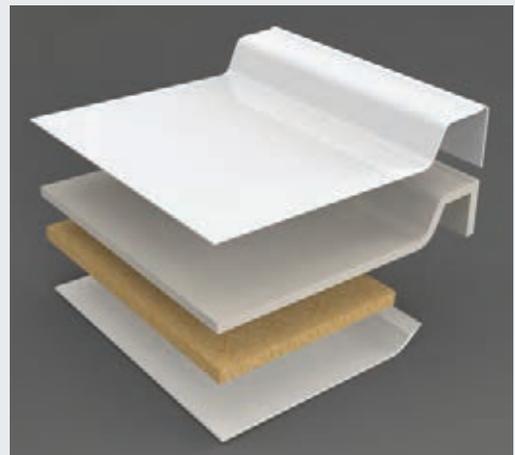

Made using a grade normally only used in ocean yachts. This will ensure durability and longevity of the product.

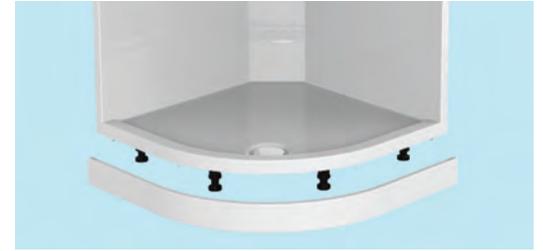

Special resin infused particle board (RIPB)

This gives the product extra rigidity and strength and allows for the shower doors, valves and additional accessories to be attached directly to the unit without having to go through to the wall behind.

High-end GRP (Glass Reinforced Polymer)

A second coating of GRP is used to encapsulate the entire unit, making it impregnable to moisture.

The shower tray is just 50mm in height where all units are supplied with adjustable feet to assist levelling.

Each unit comes with a 90mm, easy clean waste, complete with stylish chrome dome, to complement the contemporary appearance, and flexi hose for easy installation. They allow 32 litres of water to be carried away per minute. Ideal for power showers.

Allows the product to be installed completely above ground with no excavation into the floor.

Adds 100mm to overall height which allows full access to the waste.

Aqua Leak Free - Riser Kit

White	100mm	S6100533
Granite	100mm	S6100534

Aqua leak-free showering Installation

Through easy installation, our Aqua leak-free range can give clients complete confidence. Eliminating the need for tiling or grouting means the self contained shower cubicle will stay looking as pristine as the day it was installed.

Prepare the floor with the waste and the inlet pipes

Place gasket between the shower wall sections and tighten bolts.

Fix the valve to the unit using our fast fit brackets.

Fix the unit to the wall and attach pipework.

Mira Flight Safe

Our Mira Flight shower trays replicate the minimalistic trend with its stunning pure white finish. These are built to be incredibly durable, being made from acrylic-capped resin stone which ensures that the trays are scratch and chip resistant too. These shower trays feature BioCote® technology to prevent bacteria and mould growing.

All of our Mira Flight shower trays come with a Vortex waste fitting

Wet Rooms

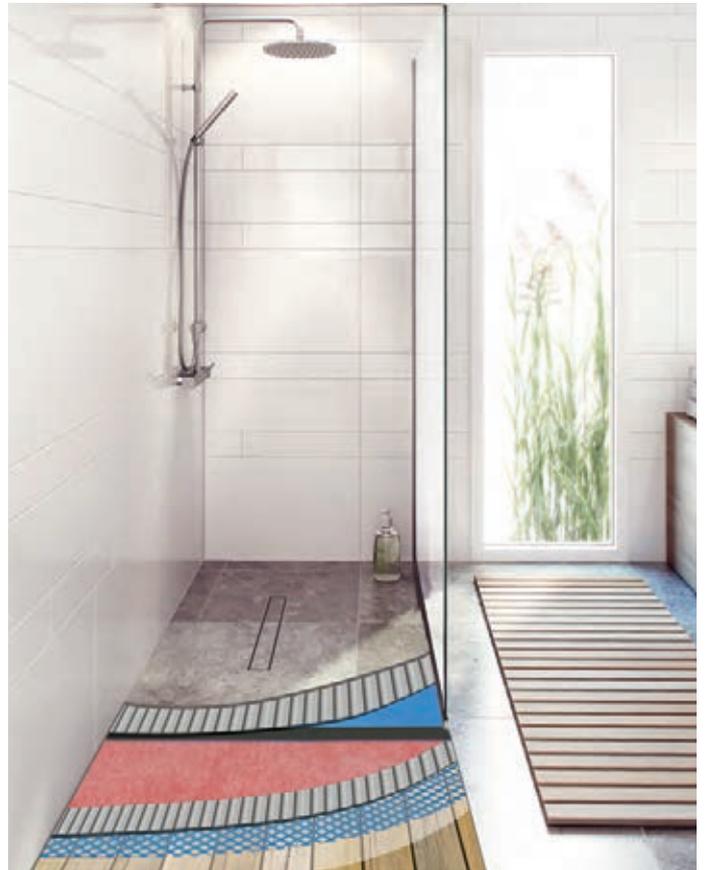

What is a wet room?

A wet room is a stylish and practical bathroom solution with a fully tiled shower area which is easily accessible with flexibility of design.

Will a wet room work in my existing bathroom space?

Wet rooms are becoming increasingly popular due to their versatility. Whether you have a big or small bathroom you can be sure to create the ultimate wet room experience. With various configurations available there are plenty of options to suit your needs and requirements.

Shower Decks

Our shower decks have been independently tested and have been proven to be the strongest shower decks on the market. All of our decks are totally waterproof and robust which can be laid directly onto suspended joists or inlaid into a screed.

Drainage

We offer you a range of drainage options ensuring that style is also thought about as well as functionality. With a selection of stainless steel covers and tile insert grates we can offer you the choice to have a drainage option which can be tiled over to create more of a modern look.

Wet Room Tanking

Our Wet Room Tanking System helps you to create a watertight solution within your wet room. Use Nicobond Wet Room Waterproofing Membrane, Tanking Sheet and other components to create a fully waterproof environment.

Shower

We have a range of shower options which you can choose from depending on which one suits you best. Please take a look through our taps and mixers section to find out more about what we have to offer.

Screens

Shower screens offer an attractive final touch to your showering area, helping to keep the water contained. With a wide range of choice available you can be sure to find something that suits your needs and requirements.

Tiles

If you are looking to create a tiled wet room, remember to use our Premier Shower Deck which is suitable for this kind of flooring. Not only are we able to offer you all of the components for a wet room but we can offer you the tiles too.

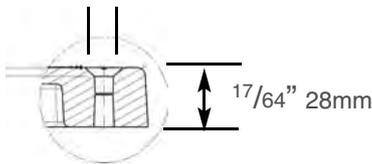

Premier Infinity Shower Deck

Unique waterproof revolutionary factory fitted sliding drain system. Experience Luxury with the Invisible Infinity Deck System

A unique, sliding drain system with an integrated factory fitted waste for complete confidence

- Factory fitted waste outlet for total confidence of a leak free connection
- Moveable waste to avoid joists in the floor during installation
- Against the wall invisible drainage system that allows for a seamless, unobtrusive water removal
- Comes with a drain insert that can be tiled
- Manufactured using high strength precision metal moulds
- Strong and durable base made from 50% recycled material
- Built-in 12.5mm upstand
- Can be tiled directly on to
- Avoid envelope cutting of tiles as system uses single, gradual slope
- Built in gradients for water removal to the waste
- Ideal for total level access
- Self supporting, no requirement for additional support
- Accepts 470kg point loading
- 28mm level access base

Our N&C Premier Infinity Deck is a revolutionary shower deck with a unique, factory-fitted waste outlet which can be moved along by the installer to align the waste in the correct position. The sliding action of the outlet means that the deck can be sited in a convenient position where obstacles such as a joist can be avoided.

The deck also features a unique waste removal system, which means that the finished result is an invisible, seamless and highly attractive waste system that is discreet and attractive. The precision engineered single direction gradient, complemented by the stainless steel edge allows for the high volume removal of waste water.

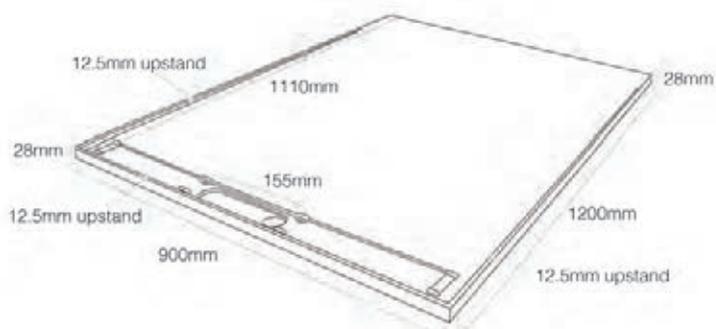

This is a highly innovative approach to linear decks where we offer a practical, attractive and fuss free alternative to other conventional linear drainage systems.

Use with Vinyl

Premier Shower Deck is ideal for creating a level access wet floor area with ease. With a self supporting structure, Premier Shower Deck can be placed directly onto underfloor joists without the need for additional support. The built-in falls in the deck encourages the swift removal of waste water.

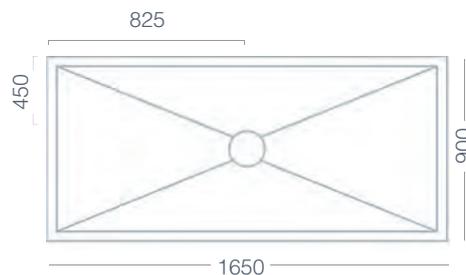

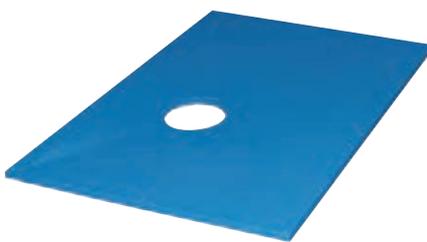

Designed with easy installation in mind, Premier Shower Decks can be installed into existing concrete or timber floors. Offset waste outlets have been designed to avoid joists (in most circumstances) for easier access to the pipework. The pre-cut outlet is suitable for use with gravity waste or pumped waste systems. Pre-cut linear drainage options are also available.

Use with Vinyl

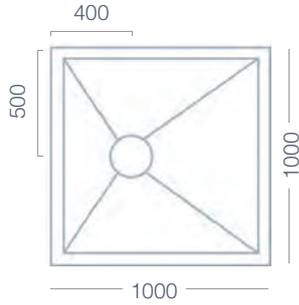

The N&C Aqua-Floor shower deck is a high strength wet room shower deck that has been compression moulded using a high glass content SMC formulation.

Computer Aided Modelling was used to create this unique, ribbed design to the underside of the Aqua-floor. Independent tests prove Aqua-floor's structural cellular design enables us to achieve the highest levels of durability and strength of SMC floor formers on the market, with minimal deflection. At 350kg point loading, Aqua-floor offers complete confidence in its rigidity and strength.

N&C Wet Zone

Our N&C Wet Zone is quickly and easily assembled using the N&C Premier Shower Deck mounted onto the Wet Zone Base. The principle benefit being that the components sit directly onto the floor. This offers the perfect solution where it is impossible or impractical to breach the floor. Waste pipes and connections are all built in to the base and previous connections can be utilised. A shower screen, tiles and shower valve complete the transformation.

Independent Performance Testing

An Independent expert testing authority, WMG, have completed a full programme of audited testing to evaluate the performance of the N&C Premier Shower Deck and N&C Aqua-floor Shower Deck in comparison with two competitor SMC products. The shower decks were mounted on a bespoke test rig and were subjected to point loading and distributed weight spread loading using a hydraulic cylinder or plate with a calibrated load cell.

The unloaded decks were scanned for reference using an Optical Coordinate Measurement Machine and then re-scanned as increased levels of load were applied. The test report results, shown in graph form, confirms that the N&C Premier Shower Deck was found to outperform all competitor products tested against strict test criteria*.

The report also confirms that the N&C Aqua-floor SMC shower deck outperforms the competitors SMC shower decks tested; offering best in class for point loading and distributed weight spread loading.

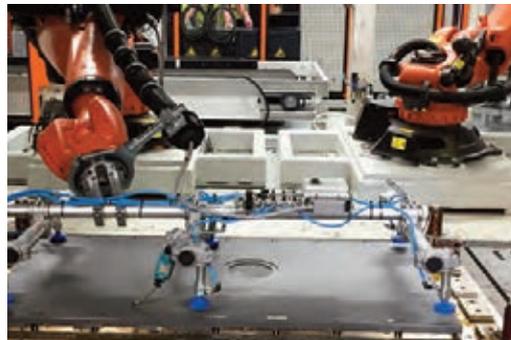

International Manufacturing Centre

Advanced robotic SMC production line.

High grade SMC based material being placed in to an Aqua-floor shower deck mould using the UK's most technically advanced robotic SMC production line.

Aqua-floor shower deck being placed on the conveyor belt heading for our packaging line.

A freshly moulded Aqua-floor Shower Deck ready to be removed from its mould.

Deflection Under Point Loading at 250kg

The Results...

N&C Premier Shower Deck proved to be up to 30% stronger than the competitors decks tested.

N&C Aqua-Floor Shower Deck proved to be up to 20% stronger than the competitors SMC decks tested.

Deflection Under Point Loading at 350kg

The Results...

N&C Premier Shower Deck proved to be up to 30% stronger than the competitors decks tested.

N&C Aqua-Floor Shower Deck proved to be up to 25% stronger than the competitors SMC decks tested.

Deflection Under Point Loading at 250kg

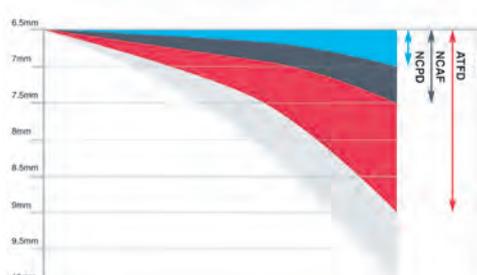

The Results...

N&C Premier Shower Deck proved to be up to 52% stronger than the competitors decks tested.

N&C Aqua-Floor Shower Deck proved to be up to 24% stronger than the competitors SMC decks tested.

Deflection Under Point Loading at 350kg

The Results...

N&C Premier Shower Deck proved to be up to 25% stronger than the competitors decks tested.

N&C Aqua-Floor Shower Deck proved to be up to 21% stronger than the competitors SMC decks tested.

Nicobond PlasticPly™

2mm thick, self adhesive timber reinforcing sheet, designed to facilitate the bonding of ceramic, porcelain & natural stones to timber floors.

- 4 sheets at 600 x 500mm
- Easy to cut & no drilling
- Stops cracked and loose tiles

1.2m² | N5100500

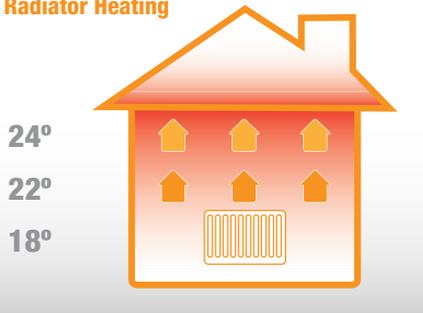

Approx 10m² | N5200200

Undertile Heating

Our Nicobond undertile heating system provides luxurious heated floors, whilst being safe in the knowledge that there are no additional maintenance costs to consider. Our system is independently approved by BEAB to the very latest standards and tests.

Radiator Heating

Standard heating systems within homes such as radiators work by heating the air surrounding them using convection. The air is heated by the radiators, travels up to the ceiling and cools and falls back down to ground level to start the cycle again. However, this system allows specific areas nearer to the radiator to become overheated which of course is inefficient and expensive.

Undertile Heating

Undertile Heating is becoming increasingly popular within the UK and is known to create a more efficient and comfortable heating system. By the whole floor being heated, the radiant heat gives an even spread of heat around the room without having to wait for the warm air to circulate.

*Add a
luxurious feel to
the home with
Undertile
Heating*

Step onto toasty tiled floors during those cooler months with Nicobond Undertile Heating.

Are you
looking for
undertile heating?

Nicobond Undertile Heating Mat

The Nicobond Professional Undertile Heating Mat can be used as either a primary or secondary heat source, fitted onto Nicobond Tile Backer Board for improved insulation and connected to a Nicobond Thermostat a comfortable room temperature can be easily achieved.

- 200W/m² output
- Pre-spaced cables
- Suitable as primary heat source
- BEAB Approved and EMF safe

Lifetime

“ What are the benefits of using Lifetime products?”

Lifetime is a range of lifelong products which are specifically designed for the users comfort and ease of use. All products are easily accessible, helping to assist you within the bathroom. With a range of products such as walk-in baths, comfort height toilet seats, shower seats and many more, you can be sure to create a bathroom that will last you a lifetime.

”

Walk in Baths

Our walk-in baths are specifically designed to ensure that our end user can enjoy a bath at their own comfort. With ease of access and being simple to use these baths make bathing relaxing for everyone.

Comfort Toilets

Looking for a toilet which can take the pressure off of your knees and joints? This type of toilet is just what you are looking for. These toilets are designed to be taller than standard to achieve a more comfortable seated position.

Shower Toilets

At the touch of a button you are able to wash and dry yourself with our shower toilets. These toilets are extremely hygienic and are self cleaning therefore hardly any maintenance is needed.

Wash Basins

Our wash basins are a great option for those that need support to stand and wash. With high strength hand rails this product can guarantee you all the assistance you need.

Grab Rails

Our grab rails are suitable for all users creating a safer bathroom. Having something to hold onto makes people feel more secure and confident.

Shower Seats

Shower seats are a great bathroom addition for all users. Our range of shower seats are extremely strong and durable and create a safe showering experience.

Walk-in Baths

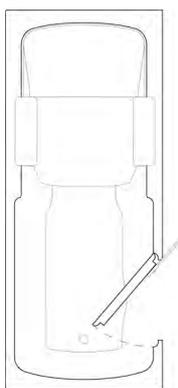

Create luxury bathing with our gorgeous range of walk in baths. With a variety of assisted bathing options available you can be sure to find the one that is best designed for you. These types of baths are easily accessible and help to take the stress right out of your day. With the doors easy secure locking mechanism you are guaranteed a watertight solution which will prevent any leakages.

Finishing Touches

“ How can I complete my bathroom look?

Add the finishing touches to your bathroom design with our range of complementing accessories. Accessories are normally overlooked, being classed as unimportant, however the little things are what make a huge impact. Therefore, we offer you a variety of towel warmers, toilet and soap holders, robe hooks, towel rails, shelves and much more to complete your project.

”

Towel Warmers

Our range of elegant sleek towel warmers help to heat your towels ready for when you leave the bath or shower. This accessory adds a designer touch to the bathroom whilst being extremely practical.

Shelves

Use shelves within your bathroom as a practical solution to store all your bathroom essentials. We offer you a wide range of shelves in different configurations and sizes to suit your needs and requirements.

Toilet Roll Holders

Our range of toilet holders have been designed to suit various bathroom designs. We offer a variety of squared, curved and straight holders to suit you.

Soap Holders

The effect that simple accessories such as soap holders have within the bathroom tends to be overlooked. A new stylish soap holder can completely transform the look of your bathroom. Therefore, we offer you a variety of designs in different finishes.

Robe Hooks

Our robe hooks are the perfect solution for a neat and tidy bathroom, allowing you to hang up your clothes, robes and towels.

Towel Rails

Our ranges of towel rails are great for hanging up your towels and allowing them to dry easily. We offer you a range of standard rails and rings as well as an upgraded option of heated towel warmers.

Towel Warmers

Our range of towel warmers provide a luxurious addition for the bathroom. These allow for quicker drying and heating of your towels. We are able to cater for all types of bathroom designs with our extensive range of different styles and sizes.

Total Solution

provider

WETROOMS

As manufacturers of the complete system, N&C offer every component required to create a stylish, level access showering environment.

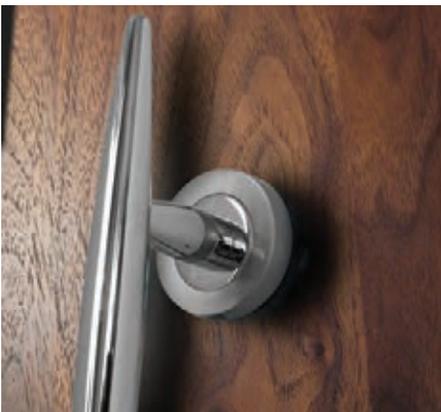

ADHESIVES

We manufacture innovative, high performance adhesives, grouts and tiling systems through our Nicobond brand, within our UK based factory.

WALL & FLOOR TILES

N&C are leading suppliers of award winning ceramic, porcelain and natural stone wall and floor tiles.

IRONMONGERY

As ironmongers since 1875, and as part of the Guild of Architectural Ironmongers, we specialise in everything required in washrooms

FLOORING

As leading manufacturers, we provide quality materials for required safety flooring, such as altro, vinyl tiles and screeds.

BATHS

From contemporary and classic, we have a broad collection of baths in a range of shapes and styles perfect for hotels.

INDEPENDENT LIVING

Through our Phlexicare brand, N&C are leading manufacturers and distributors of independent living solutions designed for people with all levels of abilities, covering accessible showering, multi user kitchens and more.

DECORATING

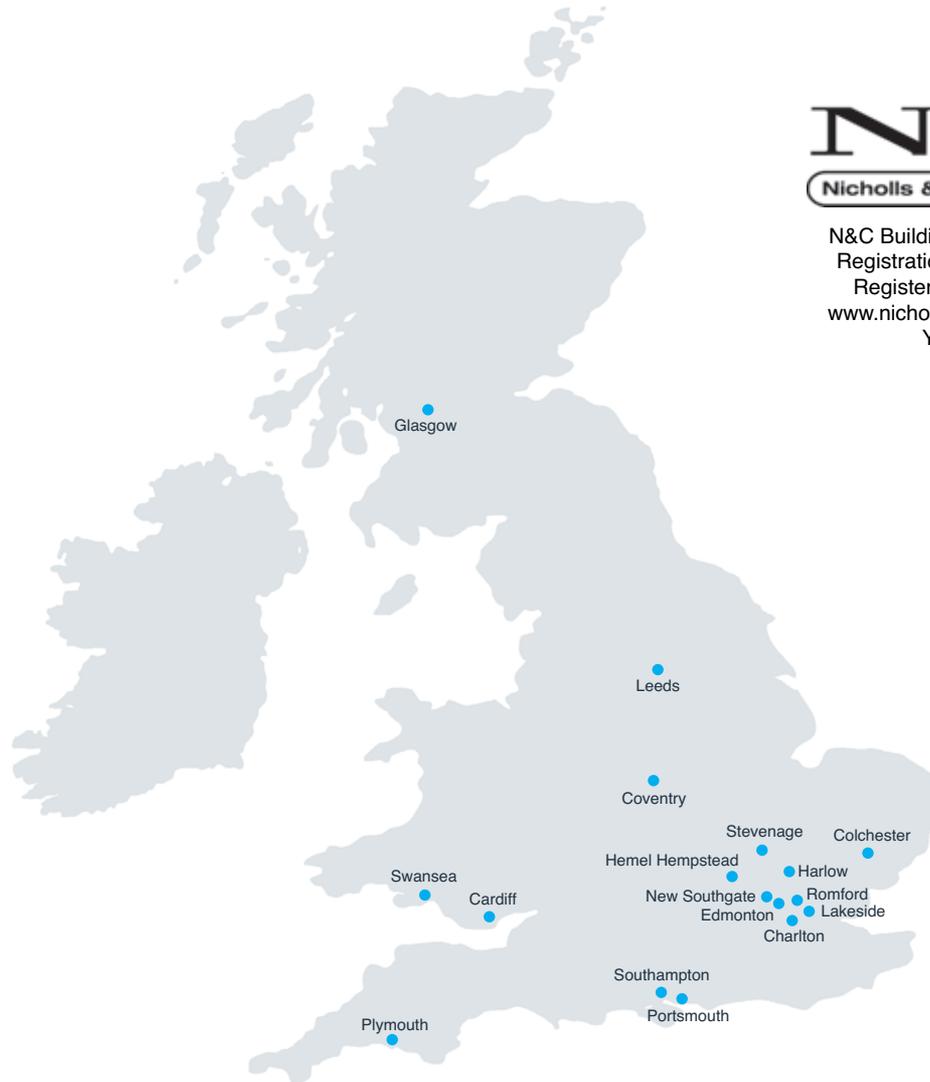

Our builders merchant division offers all the popular trade brands for decorators and building professionals.

GLASS & GLAZING

As the UK's leading independent supplier of commercial and domestic glass and glazing products, we can offer unrivalled solutions at competitive prices.

Contact your local branch or Sales Representative for dedicated literature.
