

Space might also be required for one or two assistants and/or a shower chair to transfer into before showering or entering a swimming pool.

Vertical support struts from the seat to the floor should not be installed. A padded tip up seat should be securely fixed to the wall as shown.

Drop down support rails and grab rails for a self contained changing area should be located as shown.

Drop down support rails at right angles to each other can help prevent a disabled person falling forward or sideways.
